EDITORIAL

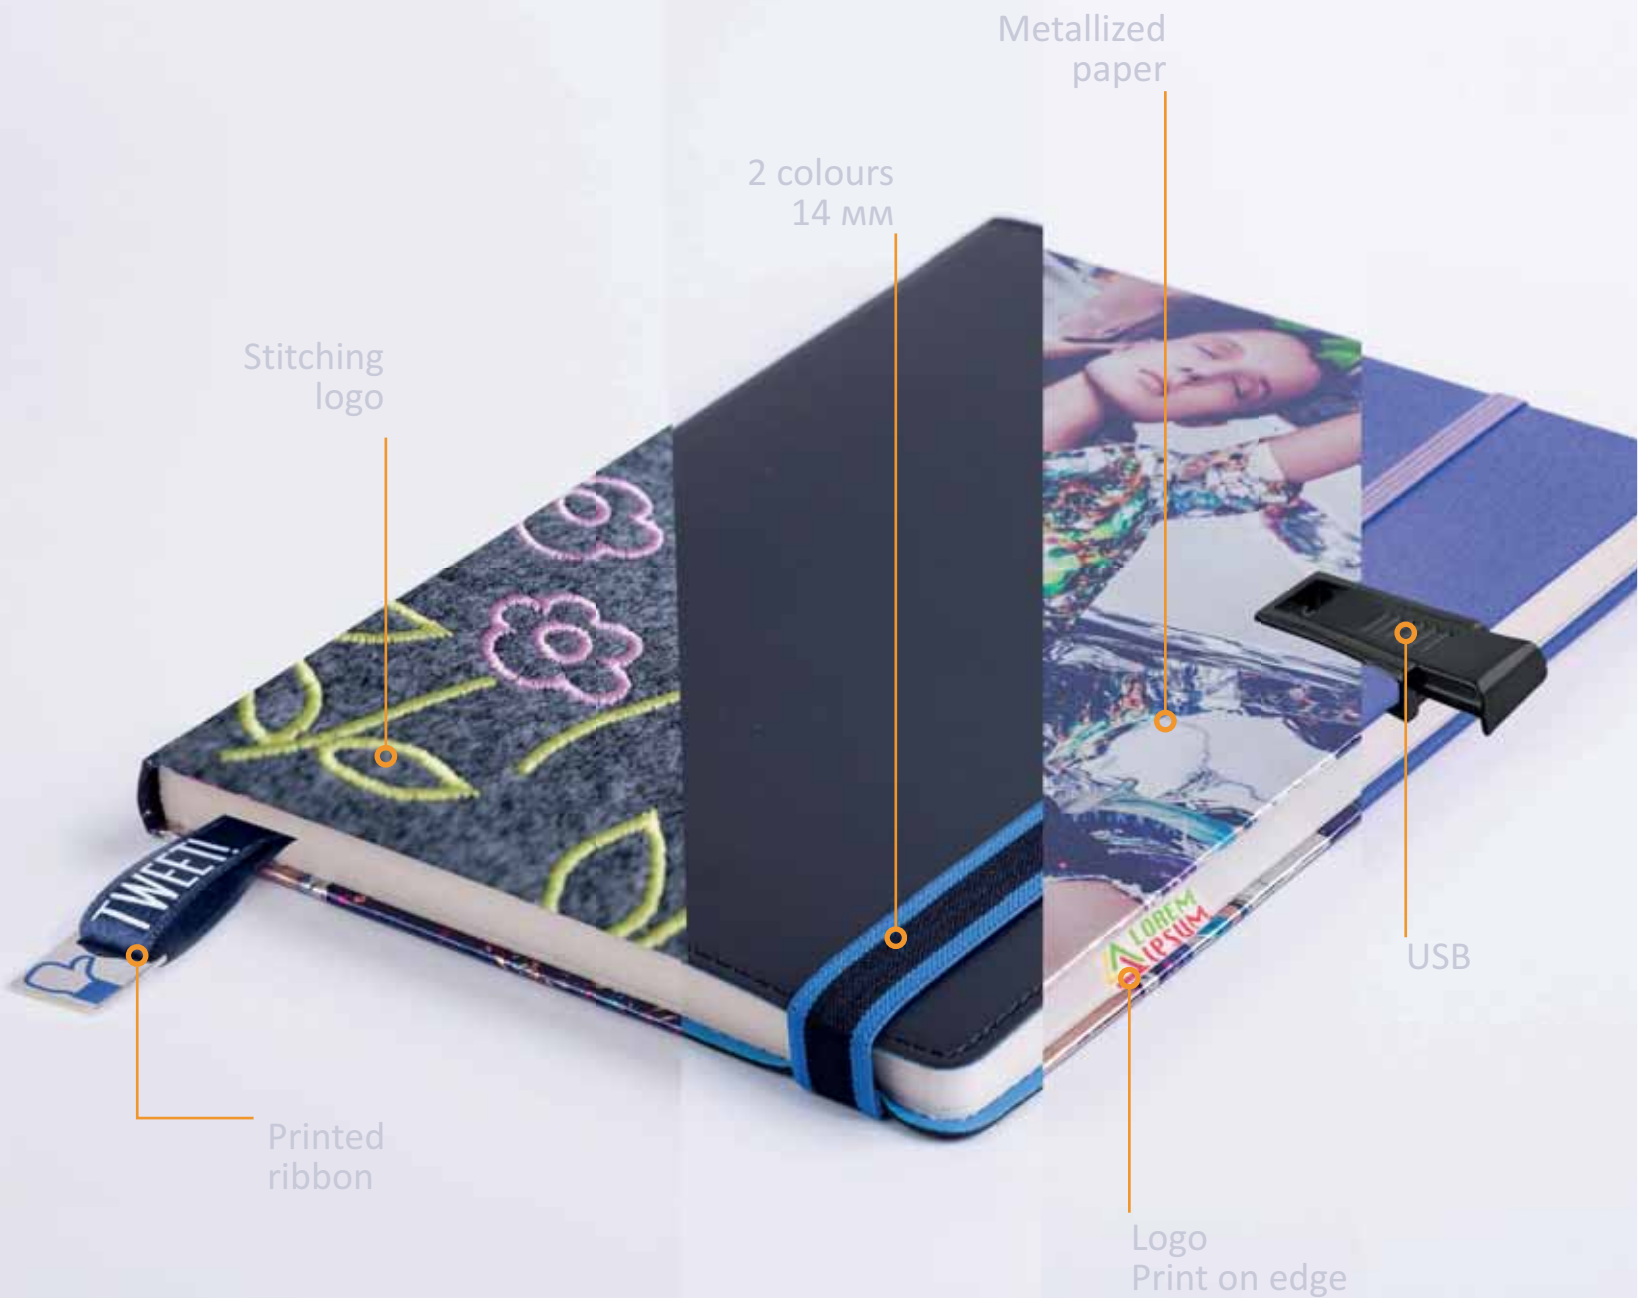

since 1980....

The ACAR Group was founded 1980 by the three brothers Zekeriya, İhsan and Mustafa ACAR in a small 40m² workshop in Istanbul – more than 37 years afterwards it is a multinational group of companies with branches in Bensheim, Moscow and Almaty, some hundred employees and more than half of the production being exported to global markets. The fundamentals of our success are passion, highest benchmarks in quality and workmanship, a clear and honest design, investments in our state-of-the-art manufacturing equipment and a strong dedication to market demands. With clear focus on our trademarks ARWEY and BAÂ and 37 years of experience as a manufacturer we combine unique and modern inspired design with highest functionality and quality – secured through the whole production process and underlined by the ISO 9001 quality standards certificate as well as by the FSC-COC Forest Management Council Protection Chain Certificate. The ACAR Group is therefore committed to hold responsibility for humans and the environment.

Liebe Leser, Kunden, Partner und Freunde, kreative Ideen – Design – Qualität – Innovation – Erfahrung das sind einige Worte die uns beschreiben, uns leiten und jeden Tag motivieren.
