communication by products 

Promotional items for all senses.

Our products
taste, refresh, care, scent and protect.

Our products are communicative agents
to transmit your individual advertising message.

**Our products are in fact very different –
but one thing they do have in common:**

They delight the recipients and have a real added
value. For consumers and your company.

We develop, produce and deliver our products
under consideration of the protection of our
natural resources; of course, we keep to QS processes
and we work in correspondance with the European norms
for food and cosmetic products.

- ✓ Short delivery Times
- ✓ Small minimum quantity
- ✓ Flexible logistics
- ✓ Premium printing technologies
-  Sustainable

Tested and qualified
formulas

Optimized
quality management

Production and processes
according to ISO:9001 regulations

We produce in:

Germany

Austria

Switzerland

// ECO

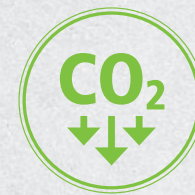

For more than 80% of our product range we use cardboard boxes from guaranteed ecological and sustainably managed forestry and seal them plastic-free with brown paper tape.

Sustainable cardboard packaging
with paper tape

We take responsibility:

- ✓ for our products
- ✓ for our consumers
- ✓ for our behavior
- ✓ for nature and environment

We constantly work on the reduction of our CO₂ emissions. We offset unavoidable ones.

We use compostable materials made from renewable resources.

We use paper from sustainable and controlled forest cultivation.

We purchase green power from 100% renewable sources.

We work on getting better every day.

Recycled material loops and raw materials

Products need packagings

Packagings are necessary

- ✓ to **protect** our products
- ✓ to **keep** them **fresh**
- ✓ to make them **transportable and** to **preserve** them

Closed recycled material loop

Closed recycled material loop have a significant impact on the worldwide resource efficiency. Hence, we constantly seek to optimise the recycling capability of our articles. Even when producing the goods, we carefully take in consideration which raw materials will be given into the loop. There is no need to reproduce reusable goods.

Sustainable raw materials

We stand up for using sustainable raw materials in any case the current stage of research and technology enable us to do so. By using recycled and compostable materials we save great quantities of fossil resources and reduce the impacts on the world climate.

Reduction of material usage

We reduce the quantity of material usage in any case possible and senseful. Thus, the environmental impact is reduced and valuable resources are saved.

Did you know about Amber Glass Bottles...?

✓ Protects

by its extraordinarily good barrier features.

✓ Keeps fresh

and protects valuable ingredients. Because of its heat resistance it enables a gentle production without preservatives.

✓ Absorbs

most of the UV radiation and prevents oxygen exchange.

✓ Recyclable

Aluminum and glass are permanent materials. This means they are infinitely often recyclable without any quality loss.

100% recyclable, 100% sustainable.

84% Recycling

Around 84% of all glass bottles are recycled in Germany.

Already in 1974 a comprehensive system of glass containers has been set up. Over 250,000 of them are available nationwide - the next one is usually not far.

// NEW Ginger Shot

ATTENTION,
SPICY!

Ginger-Shot Classic

- ✓ With 22% ginger juice
- ✓ With agave syrup and fresh lemon cells

The ginger shot „classic“ is prepared according to a traditional recipe: It contains 22% ginger juice, is lightly sweetened with agave syrup and rounded off with fresh lemon cells.

Did you know about
beverage cartons...?

CO₂-efficient
compared to reusable
packaging.

The recycling procedure
for beverage cartons is easy:
the paper fibres are separated
from the plastics by water
and mechanical actions.

Paper
With paper from controlled
ecological and sustainably managed
forestry. Aluminum content reduced
to less than 3%.

There's more than
just water in the
beverage carton.

Plastic-free closure
based on sugar cane
(Bonsucro certified).

**Original
Tetra Pak®-Karton**
75% made of renewable
raw materials.

The beverage cartons
are made of valuable raw
materials which are the
basis for new products.

Water Tetra Pak-Carton

Still without carbonic acid | Particularly sustainable packaging

**The ideal, inexpensive give-away for Promotional
campaigns, trade fairs or major events.**

Made with paper from controlled ecological and sustainable
managed forestry, the Tetra Pak carton is very good recyclable.
The aluminum content in the pack has been reduced to under 3%.
The white screw cap is eco-friendly and made socially responsible
without plastic based on sugar cane: this is guaranteed by
the Bonsucro certification. The new shape is softer and ensures
a very pleasant drinking experience. Thanks to the slightly sloping roof,
no leftovers remain in the pack. The full-surface print in
photo quality impresses and attracts attention.

Made from renewable raw materials.
For the benefit of the environment we do without aluminium & varnish.

Choose out of 3 colors

Available in natural brown, black or white.

// ECO

CoffeeBag Compostable & made from renewable raw materials

The natural alternative to common coffee caps.

The mini coffee filter contains 10 g coffee powder for one cup of filter coffee and does not pollute the environment.

- ✓ Made from renewable raw materials
- ✓ Compostable

Paper & cardboard packagings
from sustainable and controlled
forest cultivation.

Simple to use:

The filter unfolds when opening
and is promptly ready to use:
simply put it on the rim
of the cup and
pour with boiled water - ready.

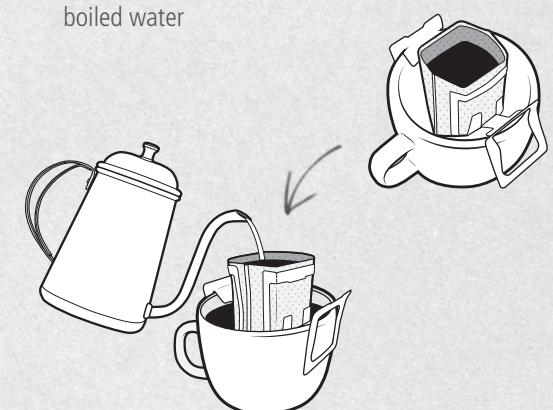

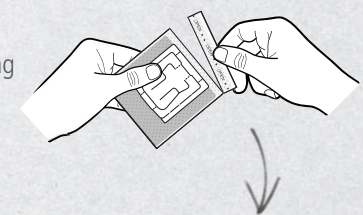

SCAN ME

So simple:

- 1 Tear the CoffeeBag
- 2 Put it on the rim of the cup
- 3 Pour with boiled water

Family Roastery Minges

Minges was awarded the **Superior Taste Award** for outstanding taste quality in 2022.

For 90 years and now in its third generation, the family business has been committed to the traditional craft of coffee roasting. In the process, Minges refines the coffee using the traditional and particularly gentle method - the original Minges long-time roasting.

The Minges family roasting company takes responsibility, both in the countries of origin and regionally. In Tanzania, for example, children often do not have the opportunity to attend school in a country dominated by agriculture. Together with Brot und Bücher e.V., the family roaster finances the expansion of existing schools and the construction of new ones.

Traditional Roasting Company J.J. Darboven

J.J. Darboven is the **market leader** in Fairtrade coffees.

J.J. Darboven is undisputedly one of the TOP 4 largest German roasting companies - and one of the oldest: founded in 1866 in a small office in Hamburg's old town, the family business is now one of the best-known coffee brands in Germany.

In the long term, J.J. Darboven wants to enable its coffee farmers to manage their own business proudly and confidently, to commit themselves to social and ecological concerns and to experience a gain in their quality of life.

Small Roastery Dresdner Kaffee

Dresdner Kaffee was named one of the **best roasting companies** in Germany by Feinschmecker magazine in 2022.

The roasting masters of the small but fine Dresdner Kaffee roastery are among the best in their guild. They are specialised in coaxing countless aromatic and flavourful secrets out of raw coffee by having great expertise in artisan roasting.

The Dresdner Kaffeerösterei purchases the coffee beans from small, family-run plantations. The roasting masters are often on the plantations themselves and set great value on a trusting cooperation with the coffee farmers, who are fairly remunerated and are thus enabled to operate sustainably.

Barista PRICE TIP

A mix of freshly ground Arabica and Robusta beans from various special coffee countries of our world.

Beans

Arabica and Robusta Blend

Roasting

Long-term drum roasting

Taste

Spicy aroma with a full and balanced taste.

Fairtrade

100% pure, freshly ground Arabica coffee from different coffee countries of the world.

Beans

100% Arabica

Roasting

Long-term roasting

Taste

Elegant taste inspired by the French way of life.

Gourmet

100% varietal, hand-picked and freshly ground Arabica coffee from Brazil.

Beans

100% Arabica

// **NEW RECIPE**

Sun Spray SPF 50

Without octocrylene | Free of nanoparticles | Fast-absorbing | Waterproof | UVA-UVB Filter

Simple application without rubbing: Spray on - that's it. The **transparent** sun protection spray with SPF 50 (high protection level) is **quickly absorbed**, is **non-sticky** and leaves no visible residue on the skin. The formulation with a balanced **UVA + UVB filter combination** and valuable vitamin E reliably **protects the skin** from sunburn and helps to prevent the effects of light-induced, premature skin ageing when used regularly.

Lip Balm

Shea Butter Beeswax Greasing Fast-absorbing Camphor

Protects and cares strained lips

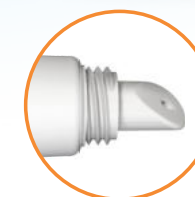

The high-quality combination of ingredients with panthenol, shea butter, allantoin, beeswax and vitamin E is perfectly balanced for the needs of strained lips. Its soft consistence is quickly aspirating; strained lips feel well and relaxed, the danger of irritated skin is reduced and the natural protection is strengthened. Mint, camphor and thymol provide a fresh minty flavour and a cooling effect.

Hand Balm

Greasing Fast-absorbing

Ginger-Lime

Light texture with refreshing scent. Due to its allaying effect ginger is used by the traditional Chinese medicine. It contains ingredients catching free radicals, activating the micro circulation of your skin, being stimulating and warming. The moistening balm penetrates quickly. The freshness of the limes and the natural aroma of the ginger complete this pleasant flavour composition.

Calendula-Aloe Vera

Perfect for the care of dry, cracked and stressed hands. The essences of the calendula contain a variety of natural anti-inflammatory substances and essential oils. Aloe Vera has an cooling, pleasing and calming effect. The advantages of both medicinal plants are combined in this rich formula and result in a quickly penetrating moistening balm. Perfect for the care of dry, cracked and stressed hands.

Bath Additives

in a new 40 ml sachet

Recyclable packaging - no material mix

Packaging is recyclable („Made for Recycling“ 18 / 20 points). Disposal via „yellow bin“ / „yellow bag“.

Mono material with „soft touch“ surface

The extra large advertising space conveys advertising messages impressively and sustainably. The sachets are made of recyclable mono-material with an extra velvety „soft touch“ surface and also provide a special haptic pleasure.

Immune Support „Eucalyptus-Honey“

- ✓ Soothing, calming and warming
- ✓ For the cold season
- ✓ Increases the general well-being

Enriched with natural oils of eucalyptus, thyme and fennel, the immune system bath is ideal for the cold season. It helps to open the respiratory tract and unfolds its liberating effect especially in wet and cold autumn and winter weather. It increases the general well-being and provides warmth and relaxation for body and mind.

Natural eucalyptus oil | Natural thyme oil
Natural fennel oil | Honey

Relaxation bath „Pine-Cedar“

- ✓ Relaxing and vitalising
- ✓ Loosens the muscles
- ✓ Ideal for tension

Relaxing bath additive for special recovery of body and muscles. Suitable for adults and children from 3 years. Enriched with natural pine, cypress and cedar wood oil, the relaxing bath is ideal for tension and has a loosening and vitalising effect. Its aromatic scent has a liberating effect like a walk in the woods, promotes clear thoughts and allows you to recharge your batteries.

Natural pine oil | Natural Cypress Oil | Natural Cedarwood Oil
Almond Oil | Long-Lasting Foam

Bath Additives

➤ For children from the age of 3

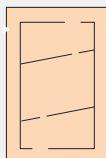

- ✗ Without animal testing

// NEW RECIPE

Body & After Sun Lotion sensitive

Without perfumes

Mit Glycerin | Feuchtigkeitsspendend | Schnell einziehend | Parfümfrei sensitive

After showering, the **balanced care formula** with glycerine helps to maintain the **skin's moisture balance**. Jojoba oil, panthenol and vitamin E nourish the skin and keep it **soft and supple**. It spreads beautifully and **absorbs quickly**. As the formulation contains no fragrances, it is particularly suitable after the shower, but also **for people with sensitive skin**.

Sportgel

Mountain Pine, Camphor & Menthol

Relaxes the musculature | Ideal for tensions | Camphor | Rosmary oil

Stimulating body gel for the massage of the muscles and the joints. The combination of mountain pine, rosemary and lavender oil has an activating and enlivening effect. Camphor and menthol refresh after a stressful day of work. It is particularly wellsuited to relax strained muscles, to relieve tensions or to regenerate muscle soreness.

Sportgel
